6.2 In accordance with Article 10 of the "CE" mark regulation, the general principles for placing and using the "CE" mark on the product are as follows:

a) By placing or ensuring that the "CE" mark is placed on the product, the manufacturer is deemed to have declared that it is under his own responsibility that the product complies with the relevant technical regulation or regulations that require this marking, and that the product has been subjected to all necessary conformity assessment procedures.

b) In case a product is subject to more than one technical regulation requiring the "CE" mark to be affixed, the "CE" mark on the product constitutes a presumption that all applicable provisions of all relevant technical regulations have been fulfilled by the manufacturer. However, where one or more technical regulations give the manufacturer a choice to apply during a transitional period, the "CE" mark only indicates compliance with the provisions of the applied technical regulation or regulations.

c) "CE" marks;

1) It is included in the annex of the CE marking regulation (ANNEX-1 SHAPE OF "CE" MARKING) and 6.12 of this instruction. It consists of the letters "CE" in accordance with the shape defined in the article and the design of the sign cannot be changed, except that it is reduced and enlarged in accordance with the proportions in the drawing.

2) Unless otherwise specified in the relevant technical regulation, it shall be at least 5 mm in size

3) In cases where this is not possible or permanence cannot be guaranteed due to the nature of the product or the information plate, it is placed in its packaging and in the documents accompanying the product as stipulated by the relevant technical regulation, in a visible, legible and indelible manner.

4) The product is placed before it is placed on the market.

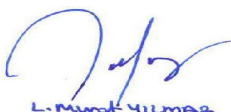

5) It is placed only by the manufacturer or his authorized representative.

ç) When required by the relevant technical regulation, the identification registration number of the notified body involved in the production control phase is also included next to the "CE" mark. Alberk QA Technic approved identification number is 2138. The identity registration number is placed by the manufacturer or the manufacturer's authorized representative in accordance with the rules of Alberk QA Technic. In the event that a product is subject to evaluation by more than one notified body due to the scope of different technical regulations, the identification registration numbers of all notified bodies involved in the production control phase are placed next to the "CE" mark.

d) Along with the "CE" mark, the product may include pictograms or other markings describing a particular risk or use.

e) No other signs or descriptions may be placed on the product to mislead third parties about the meaning and form of the "CE" mark. Any other mark may be placed on the product only in a way that does not impair the visibility, legibility and meaning of the "CE" mark.

f) The "CE" mark can only be used on products for which technical regulations are required and cannot be used on other products.
